Victim Advocates Needed

The Victim Services Unit provides support services and information to victims of crimes prosecuted by the Phoenix Prosecutor's Office in Phoenix City Court. A victim advocate plays an important role in the overall quality of service and support we are able to provide to crime victims. Volunteers who want to help victims will gain experience and learn about the criminal justice system. Depending on a volunteer's qualifications, our unit is seeking individuals who can assist with explaining victim rights and case status, obtain orders of protection or injunctions against harassment, make referrals to other social service agencies and act as an overall link between prosecutors and victims.
